

PRANEETH WELIDENIYA

PROFESSIONAL SUMMARY

Experienced software developer with over 5 years of professional experience in the IT industry. Specializing in mobile and front-end development, with over 4 years of experience. Proficient in Agile methodologies, am dedicated to producing high-quality software that meets both client and end-user expectations. I am committed to continuous learning and adaptability in this dynamic field, with a passion for creating effective and user-centric software solutions.

WORK HISTORY

Software Developer, 05/2023 - 11/2023

Caremaster Global, Sydney, NSW

- Developed mobile applications using React, React Native and TypeScript ensuring high-quality code and adherence to project timelines.
- Developed reusable pixel perfect React Native components for faster development and improved code maintainability.
- Collaborated closely with team members to conceptualize and deliver expected solutions, fostering effective communication and alignment throughout the development process.
- Took ownership of releasing mobile applications to both the App Store and Play Store, ensuring compliance with platform guidelines and smooth deployment processes.
- Provided technical guidance throughout all stages of product lifecycle, ensuring alignment between business goals and engineering objectives.
- Utilized Agile methodologies for efficient project management and timely delivery of features.

Senior Software Engineer, 01/2022 - 02/2023

Rootcode Labs, Sri Lanka

- Developed mobile applications and web application using React, React Native, TypeScript, Next JS, Node JS and express Js ensuring high-quality code and adherence to project timelines.
- Developed reusable React and React Native components for faster development and improved code maintainability.
- Increased app stability through thorough unit testing, continuous integration, and automated deployment processes.

[Bold Profile](#)

SKILLS

- React
- React Native
- JavaScript
- TypeScript
- Next Js
- Node Js
- Express Js
- HTML
- CSS
- Tailwind
- Java
- Git
- Redux

- Led a small mobile application team in building a new mobile application from scratch using React Native, successfully releasing production version within a tight 3-month timeframe.
- Collaborated closely with clients, project managers, business analysts, and designers to conceptualize and deliver expected solutions, fostering effective communication and alignment throughout the development process.
- Took ownership of releasing mobile applications to both the App Store and Play Store, ensuring compliance with platform guidelines and smooth deployment processes.
- Engaged in issue resolution, code review, and mentoring of junior developers, fostering a collaborative and growth-oriented team environment.
- Developed new features based on feedback from stakeholders, resulting in increased customer satisfaction levels across multiple projects.
- Led end-to-end feature development, from initial design concepts through final implementation and testing phases.
- Utilized Agile methodologies for efficient project management and timely delivery of features.

Software Engineer, 11/2020 - 01/2022

Hatchyard, Sri Lanka

- Worked on fintech mobile wallet application as a React Native Developer
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Played a pivotal role in building and implementing core features such as bill payment flow, KYC(Know your Customer) process, multilingual capabilities, and notification systems, enhancing the app's usability and customer engagement.
- Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.
- Analyzed proposed technical solutions based on customer requirements.
- Developed scalable and maintainable code, ensuring long-term stability of the software.
- Developed reusable React Native components that significantly reduced development effort on multiple projects.

Software Engineer, 08/2018 - 11/2020

Virtus, Sri Lanka

- Worked on development of RESTful APIs using Java and Spring Boot
- Collaborated in maintaining and enhancing existing front-end applications, leveraging JavaScript, HTML, CSS, and jQuery to ensure optimal functionality and user experience.
- Worked on the revamping of an old mobile application using React Native, assisting in the creation of intuitive UI components and integration with existing REST APIs.

- Engaged in Agile practices to facilitate efficient project development and delivery, contributing as a member of the development team to meet project timelines and stakeholder expectations.

EDUCATION

B.Sc (Hons) in Information Technology, Information Technology,
07/2018
UNIVERSITY OF MORATUWA - Sri Lanka

RESEARCH PUBLICATION

Research paper presented at the IEEE 5th International Conference for Convergence in Technology (I2CT2019) organised by IEEE Pune On September 29th -31st at Pune, Maharashtra, India.
