SUMMARY

Experienced IT professional with over 5 years in software development, specializing in front-end and mobile application development for over 4 years. Proficient in Agile practices, dedicated to delivering user-focused software solutions aligned with client needs. Committed to ongoing learning and efficiency in the evolving industry.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Java, Python, R
- **Libraries & Frameworks:** React, React Native, NextJS, NodeJs, ExpressJs, Redux
- **Others:** HTML5, CSS3, RESTfull APIs, GraphQL, Git, MySql, MongoDb, Tailwind, Shadcn, Expo, FIrebase, Supabase,

WORK EXPERIENCE

Software Developer , Caremaster Global – Sydney, NSW (Remote)   May 2023 - Nov 2023

- Developed mobile applications using React, React Native and TypeScript ensuring high-quality code and adherence to project timelines.
- Developed reusable pixel perfect React Native components for faster development and improved code maintainability.
- Collaborated closely with team members to conceptualize and deliver expected solutions, fostering effective communication and alignment throughout the development process.
- Took ownership of releasing mobile applications to both the App Store and Play Store, ensuring compliance with platform guidelines and smooth deployment processes.
- Utilised Agile methodologies for efficient project management and timely delivery of features.

Senior Software Engineer , Rootcode Labs – Sri Lanka   Jan 2022 - Feb 2023

- Developed mobile applications and web applications using React, React Native, TypeScript, Next JS, Node JS and express Js ensuring high-quality code and adherence to project timelines.
- Developed reusable React and React Native components for faster development and improved code maintainability.
- Led a small mobile application team in building a new mobile application from scratch using React Native, successfully releasing production version within a tight 3-month timeframe.
- Took ownership of releasing mobile applications to both the App Store and Play Store, ensuring compliance with platform guidelines and smooth deployment processes.
- Utilised Agile methodologies for efficient project management and timely delivery of features.

Software Engineer , Hatchyard – Sri Lanka   Nov 2020 - Jan 2022

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Played a pivotal role in building and implementing core features such as bill payment flow, KYC(Know your Customer) process, multilingual capabilities, and notification systems, enhancing the app's usability and customer engagement.
- Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.
- Analysed proposed technical solutions based on customer requirements.
- Developed scalable and maintainable code, ensuring long-term stability of the software.

Software Engineer , Virtusa – Sri Lanka   Aug 2018 - Nov 2020

- Worked on the revamping of an old mobile application and web application using React and React Native, assisting in the creation of intuitive UI components and integration with existing REST APIs.
- Worked on development of RESTful APIs using Java and Spring Boot.
- Engaged in Agile practices to facilitate efficient project development and delivery, contributing as a member of the development team to meet project timelines and stakeholder expectations.

EDUCATION

B.Sc (Hons) in Information Technology   Apr 2014 - Aug 2018

University Of Moratuwa - Sri Lanka
